

Name

Date

AMIDST Nome Pre - Post Survey

For each of the following, please indicate:

(a) How much you know about the topic, and

(b) How important the topic is.

Current knowledge level
Use a scale from 1 - 10 where
1= I do not know anything and
10 = I am one of the world's

Importance in everyday life
Use a scale from 1 - 10 where
1= Totally unimportant
10= Essential

Geoscience Content

1	I have knowledge about Earth as a system			
2	I have knowledge about satellites and airborne remote sensing			
3	I have knowledge about how satellites and remote sensing can be used to study Earth and science processes in my neighborhood			
4	I have knowledge about what climate change is			
5	I have knowledge about what causes coastal dynamics			
6	I have knowledge about the process of gold formation			
7	I have knowledge about the social impact of the occurrence of gold in my local area			
8	I have knowledge about the economic impact of the occurrence of gold in my local area			
9	I have knowledge about the environmental impact of the occurrence of gold in my local area			
10	I have knowledge about the geologic impact of the occurrence of gold in my local area			

Digital Story Telling

11	How skilled are you in using technology with students?		
12	I have knowledge of digital story telling		
13	How skilled are you in using digital storytelling with students?		

Please answer the following questions:

14 What is the value of using a scientific method to investigate and experiment?

15 How do scientists collect data to study and investigate?

16 What is the value of having parents involved with this project?

17 What is the value of having Native Elders involved with this project?

18 What is the value of having scientists involved with this project?

19 What is the value of having teachers involved with this project?
