

Library Search Databases

List compiled by Julie Sexton, pamoika@hotmail.com.

These are library databases that I use to search for science education articles. You will generally need to search several of these databases to find relevant articles. Your library may merge some of these databases into one search system, so check with a research librarian at your institution to find out how to best access the databases.

- Applied Science and Technology Abstracts
- Dissertation Abstracts
- Education abstracts
- ERIC: Cambridge Version
- Georef
- Google: Scholar
- Inspec/Engineering Index/Compendex
- PsychInfo
- Social Science Abstracts
- Students' and Teachers' Conceptions and Science Education Database compiled by Duit (<http://www.ipn.uni-kiel.de/aktuell/stcse/stcse.html>)
- Web of Science: Science citation, Social Science, Arts and Humanities
